

Reforestation, Watershed Management, Rural Development, Check-Dam Installation, Erosion Control; Water Supply & Purification - Water Resources Management: Hydrologic Engineering, Water Shed / Aquifer Protection / Stabilisation / Restoration, Aquatic Ecosystem Conservation, Well Drilling, Reservoirs, Oil Spill Barriers, Slick Decomposition; Earth Preservation - Erosion and Sediment Control: Soil Stabilization, Embankments, Retention Facilities, Slope Revegetation, Gabions, Stormwater Management, Wetland Restoration, Coastal Erosion Abatement - Forestry: Conservation & Protection, Re-Forestation, Certification, Indigenous Vegetation Seedlings, Nurseries, Fire Prevention, Logging Machinery

### Mission/Program:

- Forestry and Forest management
  
- Environmental Information
  
- Water Supply & Purification
  
- Earth Preservation
  
- Air Pollution Control
  
- Waste Management
  
- Recycling

- Noise Protection
- Power Generation
- Energy Efficiency
